With the ongoing pandemic and continued remote workforce, come more cyber threats. As I'm sure you are aware, **the cyber threat landscape is constantly changing and evolving.** Now more than ever, malicious attacks, data breaches and ransomware have become commonplace in the news. These threats affect large and small companies in every industry.

As an IT service provider, we understand these threats and seek solutions to prevent them from ever impacting your business. **We have a proven endpoint protection solution that gives us our best chance to protect you from the latest types of malicious attacks.**

Features include:
*Ability to **protect, detect, and respond** to the newest threats, including ransomware.
***Realtime endpoint forensics** and visibility into malicious activity.
***Ransomware Warranty** of $1,000 per computer with a max coverage of $1,000,000. *Restrictions Apply*

Endpoint protection is critical to the security and protection of your company's data.

HUB Tech can help Ransomware-proof your environment.
